

**University of Cambridge, Department of History and Philosophy of Science
PhD Theses**

Date Index

Author	Title	Year
Brooke, J.H.	The role of analogical argument in the development of organic chemistry	1969
Maund, J.B.	Meaning change and scientific theory change: their relevance to ordinary language philosophy	1969
Stevens, P.N.	Sense-data and the foundations of perception	1970
Teague, B.	The origins of Robert Boyle's philosophy	1971
Yoxen, E.J.	The social impact of molecular biology	1977
Perez-Ramos, A.	Francis Bacon's idea of a science	1981
Ray, C.	The philosophy of space-time: Mach, relationism and the general theory of relativity	1982
Benvilacqua, F.	The principle of conservation of energy and the history of classical electromagnetic theory (1845-1903)	1984
Liddament, T.E.	A critique of convergent realism	1984
Scott-Ram, N.	Transformed cladistics, taxonomy and evolution	1984
Martin, J.	'Knowledge is power': Francis Bacon, the state, and the reform of natural philosophy	1988
Kilpatrick, R.L.	Nature's schools: the Hunterian revolution in London hospital medicine 1780-1825	1989
Morus, I.R.	The politics of power: reform and regulation in the work of William Robert Grove	1989
Warwick, A.C.	The electrostatics of moving bodies and the principle of relativity in British physics, 1894-1919	1989
Meyer, S.C.	Of clues and causes: a methodological interpretation of origin of life studies	1990
Willmoth, F.	Sir Jonas Moore (1617-79): practical mathematician and patron of science	1990
Kusukawa, S.	Providence made visible: the creation and establishment of Lutheran natural philosophy	1991

Bravo, M.T.	Science and discovery in the admiralty voyages to the Arctic regions in search of a north-west passage (1815-25)	1992
Castell, P.	Epistemic probability in science: the prospects for probabilism as an epistemology for the natural sciences	1992
Johns, A.	Wisdom in the concourse: natural philosophy and the history of the book in early modern England	1992
Staley, R.	Max Born and the German physics community: a the education of physicist	1992
Gutierre, J.H.B.	Transcendental idealist motifs in contemporary epistemology: some parallels between Kuhn, Putnam, and Kant	1993
Hughes, J.A.	The radioactivists: community controversy and the rise of nuclear physics	1993
Spary, E.	Making the natural order: the Paris Jardin du Roi, 1750-1795	1993
Cuomo, S.	The ghost of mathematicians past: tradition and innovation in Pappas "Collection Mathematica"	1994
Frasca-Spada, M.	Hume and the idea of space: an essay in the history of philosophy	1994
Frie, R.	Subjectivity and intersubjectivity in the work of Sartre, Binswanger, Lacan and Habermas	1994
Hessenbruch, A.	The commodification of radiation: radium and X-ray standards 1896-1928	1994
Johnston, S.A.	Making mathematical practice: gentlemen, practitioners and artisans in Elizabethan England	1994
Thornton, T.	Judgement, objectivity and practice: an investigation of the objectivity of empirical judgement	1994
Barnes, E.	Fashioning a natural self: guides to self-presentation in Victorian England	1995
Borossa, J.	The role of case histories in the transmission of psychoanalytic knowledge	1995
D'Acconti, A.	The genealogies of logical positivism	1995
Dolan, B.	Governing matters: the value of English education in the earth sciences, 1790-1830	1995
Knox, K.C.	Disputes about nothing: natural philosophy in late Georgian Cambridge	1995
Andrews, B.J.	The making of modern Chinese medicine, 1895-1937	1996
Ashworth, W.J.	Memory, foresight and production: the work of analysis in early 19 th century England	1996
Hemmo, M.	Quantum mechanics without collapse: modal interpretations, histories and many worlds	1996
Pagonis, C.	Quantum mechanics and scientific realism	1996
Bailer-Jones, D.M.	Scientific models: a cognitive approach with an application in astrophysics	1997
